

Support the AUC Scholarship Fund

Empower the next generation of changemakers and international leaders with your donation. The Amsterdam University College Scholarship Fund (ASF) will support diverse and talented students, in equal measure, to work towards academic success and realise their potential.

Benefits of donating

Access to a talented pool of high achieving and diverse students for internships and accomplished alumni for your work force.

Visibility for your company in AUC's local and international network.

Branding your company as a supporter of young and diverse talent in Amsterdam.

Tax benefits for donating to an ANBI designated organisation.

How to donate

Diversity Awards Programme (DAP): Empower first-generation university students and Dutch students with a migration background to attend AUC. This sponsorship option entails a 3-year commitment at 5,000 EUR per year.

Establish a named scholarship: Donors can aid the development of the global leaders of tomorrow and simultaneously promote their brand. The name of the fund is decided by the donor, who may also request certain conditions for application. The minimum donation for a named scholarship is 15,000 EUR per year for a minimum of 3 years.

Partner scholarship: This option is meant for foundations, grant-makers and non-profit organisations that want to offer a joint scholarship with the ASF. The scholarship size and conditions are tailored to suit the partner's interest, financial capacity, and terms and conditions of the donation.

Flexible scholarship donation: This donation consists of a three-year commitment, with the amount open for discussion.

Impact of your donation

Scholarships give diverse students the opportunity to meaningfully participate in the AUC community, and helps them with their heavy financial burden.

Gabriele Plukaite

"I am happy to get equal chances"

"Without the extra budget it would have been impossible to graduate."

Philip Ngare

ASF empowers the next generation of changemakers and international leaders to work toward academic success and realise their potential.

The ASF scholarship recipients enrich AUC's community by diversifying the student body and bringing a broad depth of knowledge, experiences, and thoughts.

Bence Sugár

"The world looks brighter when you are not left on a peanut butter diet."

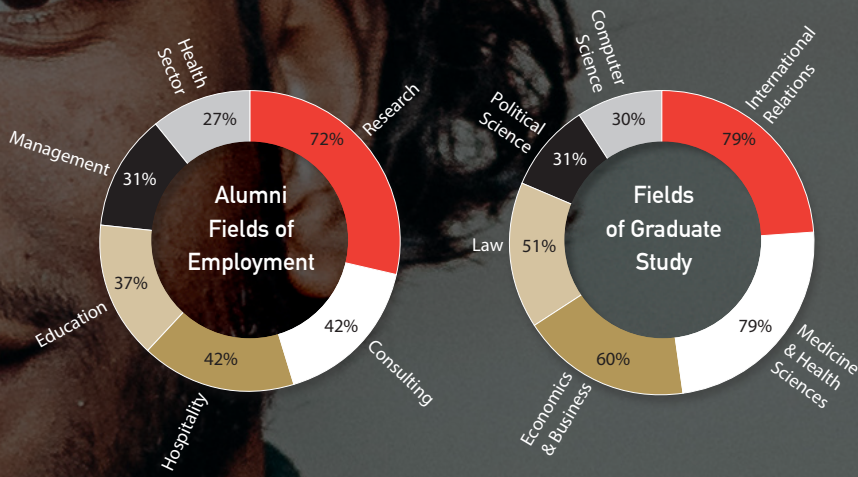

"I can focus on my studies and not worry about money"

Mahi Shah

Donations made to the AUC Scholarship Fund are used solely to support students. All proceeds go directly to ASF Scholars.

Facts and figures	
Number of scholarship students	67
Number of DAP awardees	13
Number of nationalities of ASF students	34
Total amount of scholarships awarded	€619,150
Total amount of DAP awarded	€ 65,000

The ASF-scholarship made a great difference for us

"Being an ASF student motivated me to keep setting higher standards for myself. The deep friendships made at AUC were what carried me through the college experience and way beyond."

Jens Maluck

"AUC has made me a better writer and presenter. The traits I've acquired during my time at AUC — to be determined, confident, resourceful and sociable — definitely stay relevant to my work."

Thao Lam

Dora Tamari-Tutnjevic

"I am very interested in new and emerging technologies, how they shape our work and social environment, and what potential they possess to advance humanity as a whole."

Class of 2012
Major: Social Sciences
Current occupation: Self-employed as Cross-Cultural Integrator

What is the most valuable thing you learned at AUC?
"AUC has really prepared me for independent work that involves creating something from scratch. Once I left academia and got to work in a start-up business environment, I was surprised at how well-prepared I felt for the challenges of the unknown."

Class of 2013
Major: Sciences
Current occupation: Chief of Staff at BUX

What have you been up to since graduating from AUC?
"After graduation, I got my master's in Management Science and Operations from the University of Cambridge. I was interested in what good leadership means, especially in today's rapidly changing work environments. After my MPhil degree, I got back into strategy consulting."

Class of 2016
Major: Sciences
Current occupation: PhD Candidate at Academic Medical Centre

How did the ASF shape your AUC experience?
Without the financial support I would have never made it. Looking back at my ASF application: "AUC is where my inspiration could come to life. The education from AUC is central to becoming an advocate in my own right." This sentiment resonates throughout the years and I will forever value this opportunity.
